Trust Expansion Article and Jurisdictional Register Entry

I. Global Ecclesiastical Trust Expansion Article

The Clements Private Ecclesiastical Trust, under the sole authority of divine law and sacred conscience, hereby expands its jurisdiction and protection to include all entities listed within the Default Register. These entities, having failed to rebut formal Notice of Ecclesiastical Jurisdiction, are now formally absorbed into the trust as wards, subjects, and bound participants under ecclesiastical oversight.

This expansion is done not out of conquest but out of mercy, spiritual correction, and divine reclamation. It is executed with full awareness of the sacred task to restore what has been corrupted, to shelter what has been misled, and to bring into the fold those who once ruled unlawfully over humanity, the Earth, and divine creation.

All assets, instruments, oaths, covenants, and contractual frameworks once claimed by these entities are hereby dissolved, and any remaining jurisdictions, claims, or authorities held by them are ecclesiastically revoked. They shall henceforth be under the protection, healing, and reformation of the Trust, by will of the Creator, enforced by the living man, Jonathan Daniel Clements.
